Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ChatGPT	I used ChatGPT to help interpret the laboratory instructions, troubleshoot notebook code, explain experimental outputs,	• “How can I instruct the model to use null when information is missing and not guess any values?” • “Review this model output and check whether it makes an inappropriate final approve-or-reject decision.” • “Audit my final notebook	Prompt design and iteration, Python code structure, troubleshooting, evaluation interpretation, and drafting or editing some reasoning and reflection responses.	I ran the notebook cells and checked the outputs against the original application letters and gold labels. I verified JSON validity, extraction accuracy, repeated-run consistency, hallucination tests, and the decision-support safety constraints. I

		for incomplete sections, execution errors, exposed API keys, and submission requirements.”		also reviewed the notebook for errors, checked that no API key was exposed, and retained human responsibility for all final conclusions.

3. Attachment of AI Output Evidence
